## Heart Health

The heart muscle never rests and has the highest concentrations of CoQ-10 along with other organs requiring constant energy. Deficiency of this crucial antioxidant is common with aging.

**NOTE:** If you are taking statin drugs it is absolutely imperative that you speak with your doctor about CoQ-10! Statin drugs deplete CoQ-10.

**Advanced Q10 is made from the highest quality raw material using a 12 - stage fermentation process. The result is a naturally fermented un-oxidized CoQ-10.**

The raw material is derived from several different yeast cultures that are immersed in large saltwater vats that also contain special types of algae.

The unique fermentation process allows the power of the sun to increase negative hydrogen electrons within the enzyme structure of CoQ-10, allowing it to retain the "Life Force" of the negatively charged electrons.
