No Pure Water

There is no pure water. Only at birth, within our cells, is water found in its pure state. However due to exposure to stress, pollutants and radiation water loses its original geometric properties and begins to destabilize. However, water is responsible for all interactions that control cell behavior and ultimately dictates the state of well-being. Water provides the medium to make life-sustaining reactions possible. In short, the chemistry of life is water chemistry.

Healthy Habits® BioVitale-H₂O® is leading edge technology. Unlike other water purifying systems, our electron enhanced water continues to purify itself. BioVitale-H₂O® has no competition. There many more molecules in BioVitale-H₂O® water clusters and the clusters have a stronger bond. Considering this, we can begin to see how the unique properties of BioVitale-H₂O® are unparalleled and essential to purifying our body and the environment. Don't drink someone's disease! Add BioVitale-H₂O® to all fluids consumed.
