## Eliminate Body Odors and Kill Toxic Acids!

For years people have used chlorophyll as a way to cleanse, purify and detoxify the body. It acts as an "internal deodorant" that helps neutralize normal body odors, protects and support healthy cellular function and much more.

Healthy Habits® Chlorophyll captures the energy of the sun during photosynthesis. Chlorophyll (the blood of plants) is nearly identical to the blood of humans. It is no wonder that the green lifeblood of plants can benefit our bodies in many ways. Our concentrated formula provides a month supply in a convenient 1 oz. bottle. It has a pleasant, clean, healthy taste and can be taken straight or mixed with a variety of beverages.
